

18/12/2023

Letter of recommendation.

To whom it may concern,

I first met Jaiden Dublin at QLD Raceway with his father Cam in July 2022,

Jaiden expressed interest in work experience, we initially placed him in a team member role for Round 5 of the 2022 Hi-tech Drift Series at SMSP. Jaiden displayed a willingness to learn and was very hands on with pit set up, refuelling, tyre preparation, wheel aligning and general checks.

We also had the opportunity to place him in our primary business Darwin Auto Mobile Care for a fortnight where he worked well with other team members on a variety of tasks including servicing and repairing clients' vehicles.

While Jaiden and Cam were in Darwin, we had him prepare our older Falcon for some local events, he was tasked with suspension repairs, replacing fuel lines, pre-event checks and servicing the vehicle. As the timing was good, Jaiden was able to compete in a stadium drift style event on the skid pan and a few weeks later a motorkhana.

Our old car has a lot of idiosyncrasies that make it particularly difficult to drive, not a great car to start leaning in, he quickly displayed a natural ability to control the vehicle. I was so comfortable I allowed him to take the vehicle to a Motorkhana vent by himself. Cam arranged the tilt-tray, they had another successful night, his YouTube videos of the night impressed us, there have been many drivers of that car, he is in the top 3.

I believe Jaiden has a very bright motorsport future, he has the passion, a natural ability and the determination to see it through. I encouraged Jaiden to allocate some time to writing a business plans and proposals to give reference to the goals he has set, to work out how to develop and sell his brand to sponsors, to what value they can expect from their collaboration.

We are very proud to be part of Jaiden journey, I am confident he is a rising star, we wish him all the best for his future endeavours. Please feel free to call and discuss further as required.

Kind regards,

Danny Probert
